We open the doors of our new banking house to the public tomorrow, Monday, December 19th 1910. With an increased Capital and Surplus we are better prepared than ever before to look after the needs and interests of the business people of this city. The American National Bank is willing with conservative business methods to further the cause in a business way of any individual, firm or corporation.

The officials and directors are among the most progressive, successful business men of this community, and are at all times in constant touch with the affairs of this bank.

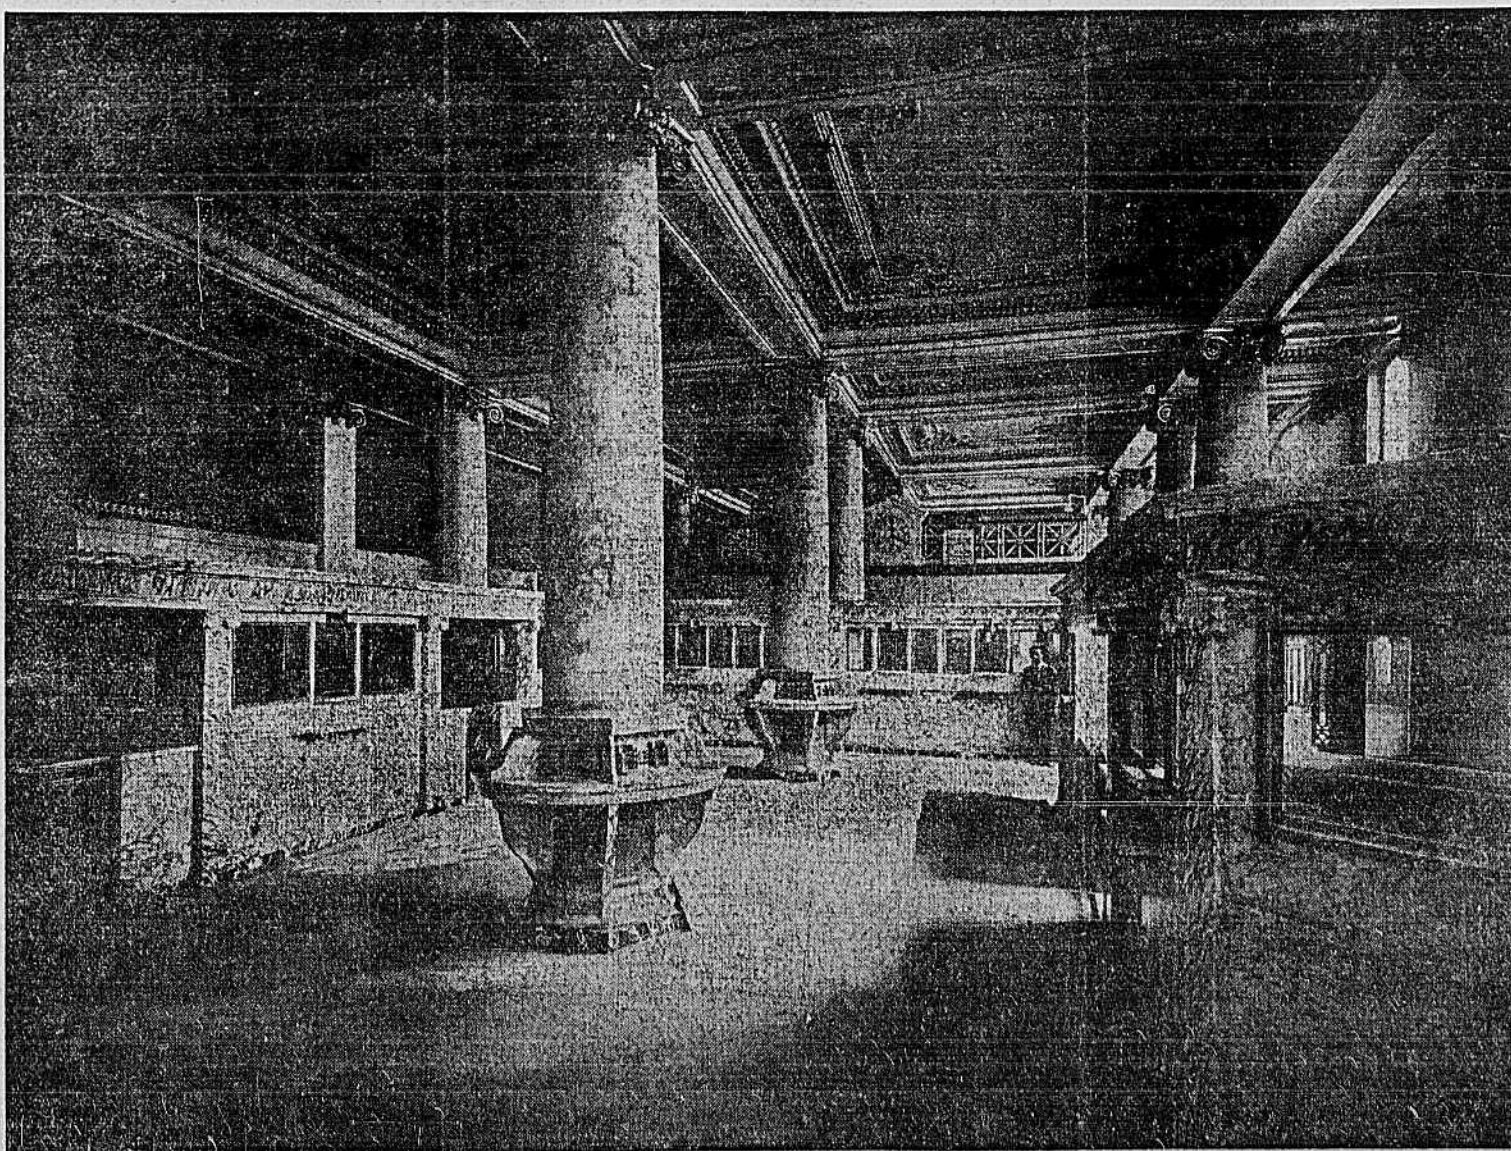

The policy of the bank of protecting depositors by building up a large surplus fund has inspired the confidence of the people in the institutions' management--confidence which is expressed in deposits of Four Millions of Dollars.

This policy will be continued in the future. The protection it affords is offered to you. Your account will be welcomed whatever it's size.

Keep Your Money in Circulation

HELP the other fellow, in so doing again help yourself. Money not needed, sent out for the use of others, when protected by careful management, makes your own business prosper. Our record for careful loans is such that you may rest content when we have your deposit. Every year thousands of dollars are lost by foolish, foolish people, who hoard money only for accident, such as fire or robbers or other mishap. What will you do about it? NOW IS THE TIME TO DECIDE.

Call and see our complete equipment--unexcelled in this section.

INTERIOR OF THE BANKING ROOM LOBBY

Why this Bank invites Your Account

THE fundamental reason for the existence of banks is to afford safety for money and to assist the inhabitants of a community in the transaction of their financial matters. The men directing the affairs of the American National Bank are interested in everything that is best for the people of Richmond, and this Bank was one of the first national institutions in the U. S. to establish a Savings Department. In this department we assist you to accumulate a fund for future use by receiving deposits from \$1.00 upwards, paying 3% compound interest and affording unquestioned safety for your money.
